National Tax Limitation Committee Political Action Committee Endorses Judge Stracener, Nutting, and Barb

Roseville, CA – The National Tax-Limitation Committee PAC(NTLC PAC), in its continued mission to support legislation and candidates that fight for taxpayers, has endorsed three candidates in El Dorado County; Judge Warren (Curt) Stracener for Superior Court Judge, Supervisor Ray Nutting in District II, and small business owner Richard Barb for County Supervisor in District III.

“We need to elect responsible people to National, State and local office, like Judge Stracener, Supervisor Ray Nutting and Richard Barb”, said Lew Uhler, NTLC President, “who will limit government spending, balance budgets and eliminate departmental waste, fraud, and abuse”.

“Judge Stracener stood up to powerful public employee unions and helped save our State millions of dollars when he served as a top attorney with the Department of Personnel Administration and policy advisor to Governor Schwarzenegger”, explained Uhler, “We are also impressed by his breadth and depth of experience which includes appearing before the United States Supreme Court and other higher courts”.

“Supervisor Ray Nutting has reduced El Dorado County Government by 300 full-time positions”, stated Uhler, “and balanced every budget without raising taxes”.

“Richard Barb is a solid fiscal Conservative with a job creating vision and small business background and, most importantly,” forecasted Uhler, “he has the courage and conviction to successfully stand-up to the spending lobbies”.

The National Tax Limitation Committee (NTLC) was founded in 1975 by Lew Uhler, who had previously served as then Governor Ronald Reagan’s State Director of the Office of Economic Opportunity and later as Reagan’s Assistant Secretary of the Health & Welfare Agency. NTLC’s mission was, and continues to be, the promotion and support of measures and elected officials that support limited/”right size” government, lower tax rates and reduced government spending and a government that promotes equality of opportunity not equality of outcomes.

The National Tax Limitation Committee can be found at <http://LimitTaxes.org>, on Twitter @LimitTaxesorg and Facebook.com/NationalTaxLimitationCommittee.
